

## What is a learning inventory test?

- ✓ A survey that helps determine what is the best way for you to learn in the classroom.
- ✓ Personality effects what kind of learner you are

## How the test helps the teacher:

- ✓ Teach with different techniques
- ✓ Help students individually
- ✓ Tests can be taken in different formats

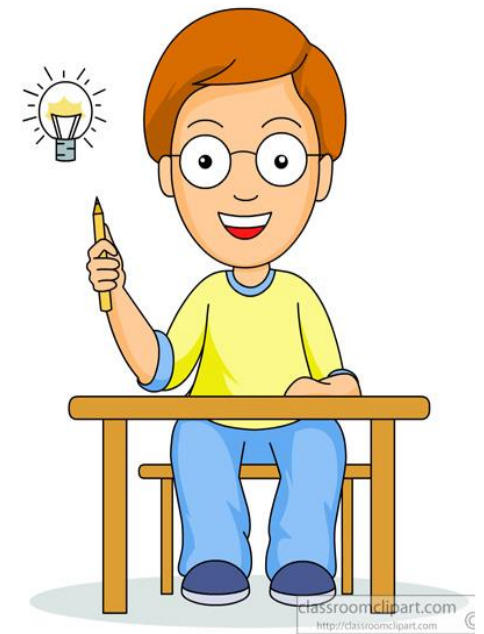

Ms. Allison Dehn

## Why do students need to take the test?

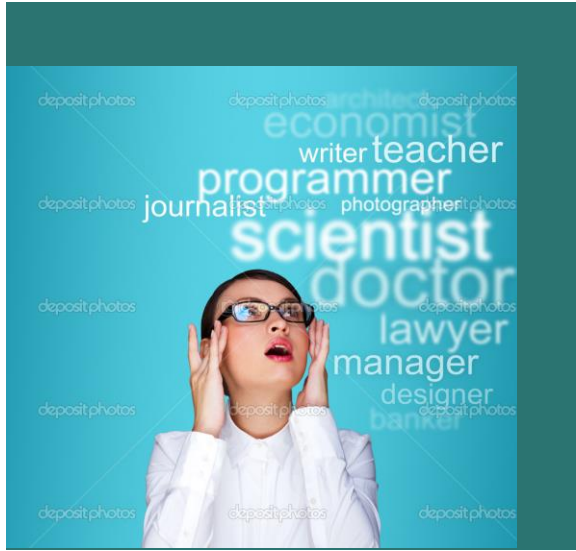

- ✓ Students take two learning inventory tests so students find out which learning style they learn the best from.
- ✓ Knowing the type of learner you are, will help you do better in school.
- ✓ Experiment on what type of learning style works best for you.
- ✓ Find someone who has a different learning style than you. Why does one style work for them and not you?
- ✓ **This is not a graded test, the test is for you and me to discuss with the rest of the class. The test is graded on completion.**

# Learning Inventory Test

**Mission: Find out how you learn the best so that you can succeed**

## Parents:

- ✓ Please take the time to sit next to your child while he/she takes the test.
- ✓ Please help your child find their results and follow the directions- to make sure no mistakes are made in the process.
- ✓ Help your child to read through and make an understanding of what their learning style means.
- ✓ Have child print off results (or email to me) to bring to school.
